Epson **WorkForce WF-7015**

DATASHEET

The WorkForce WF-7015 is Epson's first networked A3+ printer designed with the needs of both small businesses and home office users in mind. It helps make the most of limited resources so the user can present their business in the best possible light.

It's ideal for users such as graphic designers, architects and engineers, who need to print high-quality colour documents at up to A3+ size as well as double-sided A4 documents. It represents the perfect blend of affordability, reliability and speed.

Prints are delivered quickly and efficiently with speeds of up to 34 pages per minute in draft mode[2], and up to 15 mono and 8.2 colour pages per minute[1] for business-quality documents. Demanding offices can reduce paper usage by up to 50 percent with super-fast A4 double-sided printing at up to 7.7 mono and 5.2 colour pages per minute[1]. Productivity is further enhanced with twin high-capacity 250-sheet paper trays for less frequent refilling. This also means you can keep it stocked with both A3 and A4 paper which helps save time and gives you media flexibility.

Multiple users can share these benefits as Ethernet and Wi-Fi connectivity come as standard, with Wi-Fi featuring enhanced wireless security with WPA2 encryption.

Producing business-quality text and vibrant colours, the economical WF-7015 provides savings of up to 50% cost per page[3] and up to 80% lower energy consumption[5] compared to competitive lasers to further reduce costs and environmental impact.
